SECTION IV - INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in mutual fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk, including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invest fluctuates, the value of your investment in the Scheme may go up or down. In addition to the factors that affect the value of individual investments in the Scheme, the NAV of the Scheme can be expected to fluctuate with movements in the broader equity and bond markets and may be influenced by factors affecting capital and money markets in general, such as, but not limited to, changes in interest rates, currency exchange rates, changes in Governmental policies, taxation, political, economic or other developments and increased volatility in the stock and bond markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Mutual Fund.
- The present Scheme is not a guaranteed or assured return Scheme.

Additional Risk Factors for Foreign Investors:

1. Political Risk

Investments in mutual fund Units in India may be materially adversely impacted by Indian politics and changes in the political scenario in India either at the central, state or local level. Actions of the central government or respective state governments in the future could have a significant effect on the Indian economy, which could affect companies, general business and market conditions, prices and yields of securities in which the Scheme invest.

The occurrence of selective unrest or external tensions could adversely affect the political and economic stability of India and consequently have an impact on the securities in which the Scheme invest. Delays or changes in the development of conducive policy frameworks could also have an impact on the securities in which the Scheme invest.

2. Economic Risk

A slowdown in economic growth or macro-economic imbalances such as the increase in central and state level fiscal deficits may adversely affect investments in the country. The underlying growth in the economy is expected to have a direct impact on the volume of new investments in the country.

3. Foreign Currency Risk

The Scheme is denominated in Indian Rupees (INR) which is different from the home currency for Foreign Investors in the mutual fund Units. The INR value of investments when translated into home currency by Foreign Investors could be lower because of the currency movements. The AMC does not manage currency risk for foreign investors and it is the sole responsibility of the Foreign Investors to manage or reduce currency risk on their own. The Sponsor/Fund/Trustees/AMC are not liable for any loss to Foreign Investors arising from such changes in exchange rates.

4. Convertibility and Transferability Risk

In the event capital and exchange controls are imposed by the government authorities, it would prevent Foreign Investors' ability to convert INR into home currency and/or transfer funds outside India. The convertibility and transferability of INR proceeds into home currency is the responsibility of the Foreign Investors.

Scheme Specific Risk Factors

- In accordance with the investment management strategies, the Scheme intends to invest in DSPBREF, DSPBRTEF, DSPBRF25F, DSPBROF, DSPBRITF, DSPBRSTF, DSPBRSBF, DSPBRMMF, DSPBRBPDF and DSPBRIOF. A certain portion of its corpus may also be invested in money market securities and or units of money market/liquid schemes of DSP BlackRock Mutual Fund. Hence, scheme specific risk factors of such Underlying Schemes will be applicable. All risks associated with Underlying Schemes, including performance of their underlying stocks, derivative instruments, stock-lending, off-shore investments etc., will therefore be applicable in the case of the Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the Underlying Schemes.
- The Scheme will invest primarily in a combination of DSP BlackRock Mutual Fund's equity and income schemes. Hence, movements in the NAV of the Underlying Schemes may impact the performance of the Scheme. Any change in the investment policies or fundamental attributes of the Underlying Schemes will affect the performance of the Scheme.
- The investors should refer to the Scheme Information Documents and the related addenda for the scheme specific risk factors and special consideration of the respective Underlying Schemes.
- The investors of the Scheme shall bear the recurring expenses of the Scheme in addition to the expenses of the Underlying Schemes. Hence the investor under the Scheme may receive lower pre-tax returns than what they may receive if they had invested directly in the Underlying Schemes in the same proportions.
- The Portfolio disclosure of the Scheme will be limited to providing the particulars of the allocation to the Underlying Schemes where the scheme has invested and will not include the investments made by the Underlying Schemes.
- The investment strategy of the Scheme involves periodic asset allocation changes that entail investing into or redeeming out of the Underlying Schemes. The Scheme's performance may be impacted by exit loads or other redemption charges that may be charged at the time of redemption from the Underlying Schemes. Since the incidence of exit loads/redemption charges on investments made by the Scheme in Underlying Schemes of the Fund is based on first-in, first-out principle, it is anticipated that the impact of such exit loads/redemption charges could be minimal during the normal course of functioning of the Scheme.
- The Underlying Funds may suspend or restrict the purchase/redemption of units due to occurrence of certain events as specified in the respective Scheme Information Document. The periodic asset allocation changes of the Scheme could get delayed as a result of such suspension/restriction of purchase/redemption of units.
- The Scheme investments in the Underlying Schemes of the Fund are subject to 20-25 rules as envisaged in SEBI circular no. SEBI/IMD/CIR No. 5/126096/08 dated May 23, 2008.
- This Scheme is meant for investors who prefer an investment that incorporates model-based asset allocation approach; it is expected that the investors of the Scheme will be predominantly retail investors. Hence, the Scheme may not be exposed to large-scale redemptions at a given point in time. The impact on Underlying Schemes will be on account of portfolio rebalancing i.e. an increase in allocation from equity-oriented schemes to debt-oriented schemes. Based on the historical data, the Investment Manager does not anticipate such redemptions to be more than 5% of net assets of the Underlying equity-oriented scheme. However, due to portfolio rebalancing, should the redemptions in Underlying equity-oriented schemes exceeds 5% of the net asset of each Underlying equity-oriented scheme, then the Investment Manager will stagger redemptions over few days, so that redemptions in any Underlying equity-oriented scheme do not constitute more than 5% of the net asset of the Underlying equity-oriented schemes' on any given business day.

A similar approach would be followed by the Investment Manager even in the case of redemptions from any Underlying debt-oriented schemes, that occur due to portfolio rebalancing from debt-oriented schemes to equity-oriented schemes.

Additionally, the aforesaid cap of 5% on redemption would also be adhered to, at the time of redemption from each Underlying equity oriented schemes and Underlying debt - oriented schemes for the purpose of portfolio rebalancing or otherwise.

Risks Associated With Investment In Debt And Money Market Instruments

- **Market Liquidity Risk:** The liquidity of investments made in the Schemes may be restricted by trading volumes, settlement periods and transfer procedures. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. There have been times in the past, when settlements have been unable to keep pace with the volume of

securities transactions, making it difficult to conduct further transactions. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Schemes are uninvested and no return is earned thereon. The inability of the Schemes to make intended securities purchases, due to settlement problems, could cause the Schemes to miss certain investment opportunities. By the same token, the inability to sell securities held in the Schemes' portfolios, due to the absence of a well developed and liquid secondary market for debt securities, would result at times, in potential losses to the Schemes, should there be a subsequent decline in the value of securities held in the Schemes' portfolios. Money market securities, while fairly liquid, lack a well developed secondary market, which may restrict the selling ability of the Schemes and may lead to the Schemes incurring losses till the security is finally sold.

- **Credit Risk** : Fixed income securities (government, debt and money market securities) are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations. The Investment Manager will endeavour to manage credit risk through in-house credit analysis. Different types of securities in which the Schemes would invest as given in the SID carry different levels of credit risk. Accordingly the Schemes' risk may increase or decrease depending upon their investment patterns. E.g. corporate bonds carry a higher amount of risk than Government securities. Further, even among corporate bonds, bonds which are rated AAA are comparatively less risky than bonds which are AA rated.

- **Rating Migration Risk**: Fixed income securities are exposed to rating migration risk, which could impact the price on account of change in the credit rating. For example: One notch downgrade of a AAA rated issuer to AA+ will have an adverse impact on the price of the security and vice-versa for an upgrade of a AA+ issuer.

- **Term Structure of Interest Rates (TSIR) Risk** : The NAV of the Schemes' Units, to the extent that the Schemes are invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline.

- **Re-investment Risk**: The investments made by the Schemes are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The additional income from reinvestment is the 'interest on interest' component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Risks Associated With Transaction in Units Through Stock Exchange Mechanism

In respect of transactions in Units of the Scheme through NSE and/or BSE or any other recognised stock exchange, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by NSE, BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE or such other recognised exchange in this regard.

B. RISK MANAGEMENT STRATEGIES

DSPBRIM is committed to a strong control and compliance environment and ensuring that the management structure is appropriate to the scale of the business. DSPBRIM's fiduciary business is managed according to the rules and a regulation stipulated for Asset Management Companies by the Securities & Exchange Board of India (SEBI) and also incorporates DSPBRIM's internal policies.

The AMC has systems and processes to monitor all the investment restrictions specified by SEBI and in this document on a regular basis.

Risks Associated With Investment In Debt And Money Market Instruments

- **Market Liquidity Risk**: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity..

- **Credit Risk**: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers, which have a good credit profile. The credit research process includes a

detailed in-house analysis and due diligence. Limits are assigned for each of the issuer (other than government of India); these limits are for the amount as well as maximum permissible tenor for each issuer. The credit process ensures that issuer level review is done at inception as well as periodically by taking into consideration the balance sheet and operating strength of the issuer.

- **Term Structure of Interest Rates (TSIR) Risk:** The Investment Manager will endeavour to actively manage the duration based on the ensuing market conditions.
- **Rating Migration Risk:** The endeavour is to invest in high grade/quality securities. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should address company-specific issues.
- **Re-investment Risk:** The Investment Manager will endeavour that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.

C. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors each and no single investor shall account for more than 25% of the corpus of the Scheme. These conditions shall be complied with, in each calendar quarter on an average basis, as specified by SEBI. In case of non-fulfillment of the condition of 20 investors in a calendar quarter, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations shall become applicable automatically without any reference from SEBI, and accordingly the Scheme shall be wound up and the units redeemed at the relevant applicable NAV. If there is breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be available and thereafter, the investor who is in breach of the rule, shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption on the applicable Net Asset Value on the 15th day of the notice period.

D. SPECIAL CONSIDERATIONS

- Subject to the SEBI (MF) Regulations, funds managed by the affiliates/associates of the Sponsors may invest either directly or indirectly in the Schemes and may acquire a substantial portion of the Schemes' Units and collectively constitute a majority investor in the Schemes. Accordingly, redemption of Units held by such funds may have an adverse impact on the value of the Units of the Schemes because of the timing of any such redemptions and may impact the ability of other Unit Holders to redeem their respective Units.
- As the liquidity of the Schemes' investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests or of a restructuring of the Schemes' portfolios. In view of this, the Trustee has the right, in its sole discretion, to limit redemptions under certain circumstances.
- Neither the SID and SAI, nor the Units have been registered in any jurisdiction. Investment Objective

The primary investment objective of the Scheme is to generate long-term capital growth from a portfolio of equity and equity-related securities including equity derivatives. The portfolio will largely consist of companies, which are amongst the top 200 companies by market capitalisation.

The portfolio will limit exposure to companies beyond the top 200 companies by market capitalization upto 20% of the net asset value. The Scheme will normally hold equity and equity-related securities including equity derivatives, of upto 25 companies. Further, the Scheme will also have at least 95% of the invested amount (excluding investments in debt securities, money market securities and cash and cash equivalents) across the top 25 holdings in the portfolio. The Scheme may also invest in debt and money market securities, for defensive considerations and/or for managing liquidity requirements. There can be no assurance that the investment objective of the Scheme will be realized.

Investment Strategy

The Scheme will have a “non-diversified” portfolio and will invest primarily in the common stocks of companies that are selected for their growth potential and which are valued at a reasonable price. The Fund Manager will use a combination of top-down and bottom-up analysis to identify sector and stock weightages in the portfolio. Top down analysis involves an analysis of the macro-environment in order to understand the business cycle that various sectors are exposed to. It also involves understanding sector trends such as scale of opportunity, pricing power, volume changes, government policy, international trends etc. Bottom-up analysis involves an analysis of company specific factors such as size, competitive position, scalability, management quality, operational efficiency, financial parameters, valuation, etc. The Fund Manager will also consider the prevailing stock market conditions in the overall portfolio construction process.

The Fund Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, India Ratings, etc. or in unrated debt securities which the Fund Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.

At the discretion of the Fund Manager, the Scheme may also make investments in ADR/GDR and Foreign Securities in accordance with and up to the limits specified by RBI and SEBI from time to time, subject to all approvals vide SEBI

	circular no. SEBI/IMD/CIR No. 7/104753/07 dated September 26, 2007 and all applicable regulations/guidelines/directives/notifications, as may be stipulated by SEBI from time to time.

Investment Objective	The primary investment objective of the Scheme is to seek to generate long term capital appreciation and the secondary objective is income generation and the distribution of dividend from a portfolio constituted of equity and equity related securities																					
Investment Strategy	<p>Equity Securities The investment direction will be in line with the Investment Manager's views on the macro economy with a particular focus on the micro impact of economic reforms, restructuring and mergers & acquisition activity. The Investment Manager prefers adopting a top-down approach with regard to investment in equity and equity related securities.</p> <p>This approach encompasses an evaluation of key economic trends and a diligent study of various investment opportunities within the specified sectors in each Scheme. In picking out individual investment opportunities for the portfolio, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the inherent worth or long-term growth potential of a company is not fully reflected in the share price of the company. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. Such growth in earnings could be due to a new product, a new process, growing market share, stronger brand equity, technological breakthrough and unique or predominant position in a market, among other factors.</p> <p>The Investment Manager will conduct in-house research in order to identify value and growth stocks. The analysis will focus, among other things, on the historical and current financial condition of the company, capital structure, business prospects, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research and technological know-how and transparency in corporate governance. The quality or strength of management would be a key focus area.</p> <p>Fixed Income Securities The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee, shall be obtained prior to investment.</p>

Investment Objective	An open ended diversified equity Scheme, seeking to generate capital appreciation, from a portfolio that is substantially constituted of equity securities and equity related securities of corporates, which could benefit from structural changes brought about by continuing liberalization in economic																						

	<p>policies by the Government and/or from continuing investments in infrastructure, both by the public and private sector.</p>
Investment Strategy	<p>Equity Securities The Investment Manager will be adopting a combination of the top down approach and bottom up stock selection approach. From a top down perspective, the focus would be on an analysis of key policy changes, infrastructure spending, economic trends, and a sector-wise impact assessment. From a bottom up perspective, the focus would be on an analysis of corporate profitability and the impact of policy changes and infrastructure spending at a micro-level. The focus would be on sectors and corporates which could witness significant value creation and unlocking of value on the back of policy changes and infrastructure spending. In picking out individual investment opportunities for the portfolio, among the defined universe eligible for investment, the Investment Manager will seek both value and growth, which are likely to emanate from the ongoing structural changes in government policy and infrastructure development. The Investment Manager will conduct in-house research in order to identify various investment opportunities. The analysis of companies will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, market share, competitive edge, research and technological know-how.</p> <p>Fixed Income Securities The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p>
Long Term drivers	<p>It is the Investment Manager's belief that India's future GDP growth will be strongly influenced by the ongoing process of economic reforms. The economic reforms process involves structural changes in various sectors and companies, including but not restricted to, encouraging private investment, de-regulation of pricing, government aided programs and change towards private ownership.</p> <p>The primary objective of these initiatives is to accelerate the pace of investment and therefore attract investment capital. Increase in investment capital may result in value creation out of new investments and value unlocking out of existing investments. Such value creation could be reflected through increased corporate profits and better market capitalisation.</p> <p>The Mutual Fund seeks to capture this value creation potential and therefore will endeavor to participate in the likely upside to market capitalisation. With regard to economic reforms, the focus will be on companies/sectors which are likely to be affected by policy change in ownership patterns (egs. Disinvestment, increase in FDI limits, opening of business to private sector), policy change in pricing (eg. De-regulation of price control), policy change in funding (eg. Government funding programmes for upgradation of specific sectors) and any other change that may be initiated in future as a part of economic reforms.</p>

Investment Process	<p>Investment opportunities are identified by employing a combination of a top-down and a bottom-up investment process that emphasizes internally and externally generated fundamental research. The Investment Manager believes that the consistent application of our research and process will produce superior long-term performance with below-market volatility. 	liquidity through active management of the portfolio by investing in high quality debt and money market securities.											
Investment Strategy	<p>In line with the asset allocation pattern, the Investment Manager may invest in both rated as well as unrated debt securities after conducting credit analysis.</p> <p>The investment process follows a Top-Down approach of investment by taking into account important factors affecting interest rate environment in India. Some of these factors are term structure of interest rates, RBI's monetary policy stance, inflationary expectations, demand supply dynamics, key economic indicators, government's fiscal policy, global interest rate environment, FII flows, currency movements, sentiment, relative spreads among various asset classes as well as systemic liquidity.</p> <p>The scheme will follow active portfolio management style based on the Investment Manager's near-term outlook on interest rates.</p> <p>This scheme will aim to generate optimal risk-adjusted returns by periodically reviewing the interest rate environment and suitably rebalancing its asset allocation as well as portfolio duration based on the Investment Manager's near-term outlook on interest rates & credit spreads.</p> <p>Accordingly, the weighted average maturity of the scheme could vary from short-term to long-term based on the interest rate outlook of the Investment Manager.</p>

Investment Strategy	<p>The Investment Manager will invest in those debt securities that are rated investment grade by credit rating agencies or in unrated debt securities, which the Investment Manager believes to be of equivalent quality. In-house research by the Investment Manager will emphasize on credit analysis, in order to determine credit risk.</p> <p>The investment process follows a top down approach taking into account aspects like interest rate view, term structure of interest rates, systemic liquidity, RBI's policy stance, inflationary expectations, Government borrowing program, fiscal deficit, global interest rates, currency movements, etc.</p>

Investment Process	<p>DSP BlackRock Investment Managers constructs fixed income portfolios using a two-step decision-making process. Portfolios are managed on a team basis while leveraging the individual expertise of each member. E. WHAT ARE THE INVESTMENT STRATEGIES?

The key value proposition of the Scheme is to provide an asset allocation overlay to investors. The Scheme will invest in the Underlying Schemes, which have a long-term performance track record. The Scheme will dynamically manage the asset allocation between the specified equity and debt schemes based on the relative valuation of equity and debt markets.

The Scheme will dynamically manage the asset allocation between the equity mutual funds and debt mutual funds of DSP BlackRock Mutual Fund based on the relative valuation of equity and debt markets. The factor that would be used for determining the asset allocation is the yield gap ratio, which is the ratio of debt market yield to equity market yield.

$$Yield\ gap = \frac{(10Y\ GSec\ yield)}{(Earnings\ yield\ of\ Nifty)}$$

10Y G-Sec is used as the proxy for debt market yield, while earnings yield of equity markets is simply the reciprocal of Price/Earnings ratio. So by looking at the ratio of these two yields, one can assess whether equity markets are overpriced or underpriced relative to debt markets

- ▶ If the ratio is ≤ 1 , one can deduce that return expectations from equity markets are higher than from debt and hence one should be invested more in equity.
- ▶ Similarly, if the ratio is >1 , the return from equity is expected to be less than from debt and hence debt allocation should be gradually increased.

The actual or current values of these parameters will be compared against the historical trend to determine the relative attractiveness of equity versus debt markets. The asset allocation table based on the yield gap bands would be as follows:

Yield Gap Ratio	Equity Allocation	Yield Gap Ratio	Equity Allocation
<1.10	90%	1.50 - 1.60	40%
1.10 - 1.20	80%	1.60 - 1.70	30%
1.20 - 1.30	70%	1.70 - 1.80	20%
1.30 - 1.40	60%	>1.80	10%
1.40 - 1.50	50%		

The model also considers the modified yield gap, which uses 1Y G-Sec yield in the numerator.

$$\text{Modified Yield Gap} = \frac{(1Y\ GSec\ yield)}{(Earnings\ yield\ of\ Nifty)}$$

If the difference between the yield gap ratio and the modified yield gap ratio is less than 0.05, which is an indicator of a flat yield curve, the following asset allocation bands based on the modified yield gap ratio would be used.

Yield Gap Ratio	Equity Allocation	Modified Yield Gap Ratio	Equity Allocation
<0.7	90%	1.1-1.2	40%
0.7 - 0.8	80%	1.2-1.3	30%
0.8 - 0.9	70%	1.3-1.4	20%
0.9 - 1	60%	>1.4	10%
1 - 1.1	50%		

In accordance with the aforesaid Yield Gap Ratio Model, the asset allocation of the Scheme will be as follows:

A. Equity Allocation:

1. The Scheme will primarily allocate its fund in the units of DSPBREF and DSPBRTEF.
2. In case the allocation of the Scheme reaches 20% of the net asset value of DSPBREF and 20 % of the net asset value of DSPBRTEF, then the Scheme will allocate the remaining funds in units of DSPBRF25F and/or DSPBROF and/or DSPBRITF in such a manner that allocation to these schemes do not exceed 20 % of the net asset value of each of the respective schemes.
3. In case allocation to each of the schemes (referred in point 1 and 2) reaches 20 % of the respective net asset value, then fresh subscription/switches into the Scheme would be suspended.

B. Debt Allocation:

1. The Scheme will primarily allocate its fund in the units of DSPBRSBF and DSPBRSTF.
2. In case the allocation of the Scheme reaches 20% of the net asset value of DSPBRSBF and 20 % of the net asset value of DSPBRSTF, then the Scheme will allocate the remaining funds in the units of DSPBRMMF and/or DSPBRBPDF and/or DSPBRIOF in such a manner that allocation to these schemes do not exceed 20 % of the net asset value of each of the respective schemes.
3. In case allocation to each of the schemes (referred in point 1 and 2) reaches 20 % of the respective net asset value, then fresh subscription/switches into the Scheme would be suspended.

Investors can get updated information on the yield gap level and the Scheme's asset allocation between equity and debt schemes through monthly factsheets and updates on the website, www.dsplblackrock.com

- **Portfolio Turnover**

Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.

The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts). The Scheme has no specific target relating to portfolio turnover.

4. Dividend Policy:

(i) Growth Option (Option A)

Under this option, the Mutual Fund will not declare any dividend. The income earned by the Schemes will remain invested in the Schemes concerned and will be reflected in the NAV. This Option is suitable for investors who are not looking for current income but who have invested only with the intention of capital appreciation. Moreover, if Units under this Option are held as a capital asset for a period of greater than 36 months from the date of acquisition, Unit Holders should get the benefit of long term capital gains tax. Please refer the section "A. Taxation on investing in Mutual Funds" in the SAI.

(ii) Dividend Option (Option B)

The above options are suited for investors seeking income through dividend declared by the Schemes. Only Unit Holders opting for such option(s) will receive dividends. Under these options, the Schemes envisage declaring dividends comprising substantially of net income and realized gains.

The options stated in point (ii) above, in turn offer two suboptions i.e. "Payout Dividend" or "Reinvest Dividend"

▪ Payout Dividend

As per the SEBI (MF) Regulations, the Mutual Fund shall despatch to the Unit Holders, dividend warrants within 30 days of declaration of the Dividend. Dividends will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). Dividends will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of dividend to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the Registered address of the sole/first holder as indicated in the original application form entirely at the risk of the unitholders. To safeguard the interest of Unit Holders from loss or theft of dividend cheques, investors should provide the name of their bank, branch and account number in the application form. Dividend cheques will be sent to the Unit Holder after incorporating such information.

If the dividend amount payable to Unit holders (net of tax deducted at source, wherever applicable) is for an amount equal to or less than Rs. 250/- in case of payout sub options of Monthly Dividend under Regular/ Direct Plan of the Scheme, the dividend amount payable will be compulsorily and automatically reinvested in the Scheme/Plan by issuing additional Units of the Scheme/Plan at the Applicable NAV on the next Business day after the Record Date. There shall be no load on dividend so reinvested.

▪ Reinvest Dividend

Under this sub-option, dividends will be reinvested by way of additional Units of the Schemes instead of being paid out. Such reinvestment will be at the applicable NAV on the next Business Day after the Record Date. There shall however, be no entry load/exit load, if any, on the dividends so reinvested. The dividends so reinvested shall be constructive payment of dividends to the Unit Holders and constructive receipt of the same amount from each Unit Holder, for reinvestment in Units. The additional Units issued under this option and held as capital asset would get the benefit of long term capital gains if sold after being held for greater than 36 months. For this purpose, 36 months will be computed from the date when such additional Units are issued/allotted.

Effect of Dividend: Post declaration of dividend, the NAV of the Units under the Dividend Option will stand reduced by the amount of dividend declared and applicable dividend distribution tax/surcharge/cess/any other statutory levy. Notwithstanding varying rates of statutory levies, the ex-dividend NAV will remain the same for all categories of investors in the Dividend Option, though the number of additional Units received by Unit Holders may vary depending on the category of each Unit Holder. **For details on taxation of dividend please refer the SAI.**

Notes:

- a) It should be noted that actual distribution of dividends and the frequency of distribution indicated above are provisional and will be entirely at the discretion of the Trustees. The Trustee reserves the right to alter the Record Date as stated herein, at its discretion. To the extent the entire net income and realised gains are not distributed, the same will remain invested in the Scheme concerned and be reflected in the NAV.
- b) There is no assurance or guarantee to the Unit Holders as to the rate of dividend distribution nor that dividends will be regularly paid, though it is the intention of the Scheme to make dividend distribution under the respective plan/options of the Scheme.
- c) An investor on record of the CAMS / Statement of Beneficiary Owners maintained by the Depositories for the purpose of dividend distribution is an investor who is a Unit Holder/ Beneficial Owners as on the Record Date. 20. Redemption

Units can be redeemed (sold back to the Mutual Fund) at the relevant Redemption Price. As all allotments are provisional, subject to realisation of payment instrument and subject to the AMC having been reasonably satisfied that the Mutual Fund has received clear funds, any redemption or switch out transaction in the interim is liable to be rejected at the sole discretion of the AMC.

The Redemption request can be made for any amount of Rs. 500/- or more. A Unit Holder may request redemption of a specified amount or a specified number of Units only. If the redemption request is made for a specified amount and the number of Units is also specified by the Unit Holder, the number of Units specified will be considered for deciding the redemption amount. In case an investor has purchased Units on more than one day (either under the NFO Period or through subsequent purchases) the Units purchased first (i.e. those Units which have been held for the longest period of time), will be deemed to have been redeemed first, i.e. on a First-In-First-Out basis.

In case the Units are standing in the names of more than one Unit Holder, where mode of holding is specified as Joint redemption requests will have to be signed by all joint holders. However, in cases of holding specified as 'Anyone or Survivor', any one of the Unit Holders will have the power to make redemption requests, without it being necessary for all the Unit Holders to sign. However, in all cases, the proceeds of the redemption will be paid to the first-named holder only.

Redemption or repurchase proceeds shall be dispatched to Unit Holders within 10 Business Days from the date of acceptance of redemption or repurchase. In other words, redemption of units will be processed only if the funds for such units are realized in the Scheme by a way of payment instructions/transfer or switch-in funding process.

The proceeds towards redemptions and dividends will be despatched by a reasonable mode of despatch like courier, post, UCP, etc. in case of cheque/demand draft or directly credited to the bank account (as per the details mentioned by the investor), entirely and solely at the risk of the investor. The Mutual Fund will endeavour to remit redemption proceeds via electronic means, as made available by RBI. Where such electronic means are not available or feasible under any circumstances, the Mutual Fund will remit the redemption proceeds by way of cheques. Redemption by NRIs and FPIs

Credit balances in the account of an NRI/FPI investor may be redeemed by such investors in accordance with the procedure described above and subject to the procedures laid down by RBI, if any. Such redemption proceeds will be paid by means of a Rupee cheque payable to the NRI's/FPIs or by a foreign currency draft drawn at the then rates of exchange less bank charges, subject to RBI procedures and approvals.

Effect of Redemption

On redemption, the unit capital and reserves will stand reduced by an amount equivalent to the product of the number of Units redeemed and the Redemption Price as on the date of redemption. Units once redeemed will be extinguished and will not be re-issued.

Fractional Units

Since a request for purchase is generally made in Rupee amounts and not in terms of number of Units of the Scheme, a Unit Holder may be left with fractional Units. Fractional Units will be computed and accounted for up to three decimal places. However, fractional Units will, in no way, affect the Unit Holder's ability to redeem the Units, either in part or in full, standing to his/her/its credit.

Redemption by investors transacting through the Stock Exchange mechanism

Investors who wish to transact through the stock exchange shall place orders for redemptions as currently practiced for secondary market activities. Investors must submit the Delivery Instruction Slip to their Depository Participant on the same day of submission of redemption request, within such stipulated time as may be specified by NSE/BSE, failing which the transaction will be rejected. 21. Delay in payment of redemption / repurchase proceeds

The Scheme is open ended and the Units are not proposed to be listed on any stock exchange. However, the Mutual Fund may, at its sole discretion, list the Units on one or more Stock Exchanges at a later date, and thereupon the Mutual Fund will make suitable public announcement to that effect.

The Mutual Fund will offer and redeem Units on a continuous basis during the Continuous Offer Period.

Units of the Schemes held in physical form shall be non-transferable. However, if a person becomes a holder of the Units consequent to operation of law or upon enforcement of a pledge, the Mutual Fund will, subject to production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transfers taking place consequent to death, insolvency etc., the transferee's name will be recorded by the Mutual Fund subject to production of satisfactory evidence. For units of the Schemes held in electronic (demat) form, the Units will be transferable and will be subject to the transmission facility in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time.

Under such arrangement, the Channel Distributors will aggregate the details of transactions (viz. subscriptions/ redemptions/switches) of their various investors and forward the same electronically to the AMC / RTA for processing on daily basis as per the cut-off timings applicable to the relevant schemes. In case there is any difference between the particulars mentioned in the fax/ web/ electronic transmission received as against the original document which may be received thereafter, the Recipient shall not be liable for any consequences arising therefrom.

The investor agrees that the recipient may adopt additional security measures including signature verification, telephone call backs or a combination of the same, which may be recorded and the investor consents to such recording and agrees to co-operate with the recipient to enable confirmation of such transaction requests. In consideration of the Recipient from time to time accepting and at its sole discretion (including but not limited to the AMC extending / discontinuing such facilities from time to time) acting on any Electronic Transaction request received / purporting to be received from the investor, the investor agrees to indemnify and keep indemnified the AMC, Directors, employees, agents, representatives of the AMC, Mutual Fund and Trustees

SECTION VIII - RIGHTS OF UNITHOLDERS

Please refer to SAI for details.

SECTION IX - PENALTIES AND PENDING LITIGATION

Penalties and pending litigation or proceedings, findings of inspections or investigations for which action may have been taken or is in the process of being taken by any regulatory authority

1. Details of all monetary penalties imposed and/ or action taken during the last three years or pending with any financial regulatory body or governmental authority, against Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company; for irregularities or for violations in the financial services sector, or for defaults with respect to share holders or debenture holders and depositors, or for economic offences, or for violation of securities law. Details of settlement, if any, arrived at with the aforesaid authorities during the last three years:

- On January 14, 2013, BlackRock and Switzerland's Federal Department of Finance ("FDF") reached an agreement in principal to resolve a matter concerning BlackRock's inadvertent late filing of reports relating to BlackRock's ownership of equity securities of Swiss companies. Without admitting any liability, BlackRock agreed to pay a fine of CHF 500,000 (US\$536,000), in exchange for the FDF terminating the inquiry into the matter. BlackRock and the FDF are in the process of negotiating the terms of the settlement.
- On July 12, 2013, BlackRock was notified by the Italian Financial Service Authority ("CONSOB") that CONSOB intends to fine BlackRock in connection with a late threshold report from September 2012 in Italian issuer, Prysmian S.P.A. BlackRock paid a fine of €10,000 to CONSOB to settle the matter.
- On December 27, 2013, the German securities regulator, BaFin, imposed a fine on BlackRock Investment Management (UK) of approximately \$301,000 in relation to its non compliance with German thresholds reporting regulations.
- In July 2012 the New York Attorney General's Office ("NYAG") sent BlackRock two subpoenas for information regarding BlackRock's use of analyst surveys. BlackRock uses analyst surveys, primarily in the Scientific Active Equity ("SAE") group, to solicit public information about issuers from sell-side research analysts for use in SAE's quantitative investment models.

Since July 2012, BlackRock responded to numerous requests for information and made several presentations to the NYAG so as to submit that the surveys were appropriate and lawful. On January 8, 2014, BlackRock entered into a settlement with the NYAG. The agreement does not impose any fine or other penalty on BlackRock. The agreement does, however, find that BlackRock violated New York's state securities law. BlackRock does not admit or deny the allegations, and has also agreed to pay the AG's \$400,000 cost of investigation.

- On 29th December 2012, the Italian securities regulator Consob imposed a fine of 150,000 Euro (\$204,600) on the BlackRock for incorrect disclosure of a reduction in stake in Italian Bank UniCredit.
- On July 4, 2014, BlackRock Inc. paid a fine of SEK 1mio (equivalent to \$1,46,000) with respect to a late threshold reporting /disclosure in Sweden.
- On July 21, 2014, BlackRock Institutional Trust Company, National Association (BTC) (BlackRock Inc. entity) agreed to pay \$1,654,710/- to Securities Exchange Commission (United States) as penalty for disgorgement and interest thereon with respect to three violations of Rule 105.
- In March 2015, the German Federal Financial Supervisory Authority, Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin) imposed a penalty of EUR 3.25 million against BlackRock Investment Management (UK) Limited for certain late disclosure or thresholds disclosure breaches. This penalty was paid by BlackRock, Inc.
- In April 2015, BlackRock came to a settlement with the U.S. Securities and Exchange Commission ("SEC") in connection with a 2014 "Wells Notice" received from the SEC staff, which recommended that the SEC file an action against BlackRock for inadequate disclosure and policies and procedures to address a potential conflict, in violation of the Investment Advisers Act ("IAA") and the Investment Company Act ("ICA"). As part of the settlement, BlackRock, without admitting or denying any wrongdoing, agreed to pay a \$12 million fine, and agreed to appoint an independent compliance consultant to review BlackRock's outside activities policy and monitoring procedures. The

proposed settlement was approved by the SEC on April 16, 2015, and publicly announced by the SEC on April 20, 2015.

- On December 12, 2014, the Swedish securities regulator (“Swedish FSA”) requested information from BlackRock regarding a late threshold report filed by BlackRock in October 2014. The report, which concerned BlackRock’s holding of Assa Abloy AB, was required to be filed in June 2014. BlackRock responded to the request in January 2015. On May 5, 2015, the Swedish FSA imposed a penalty of 1,000,000 Swedish krona (or approximately \$120,000).
- On January 17, 2017, BlackRock Inc. agreed to pay a penalty of \$340,000 to the Securities and Exchange Commission (SEC) to settle charges that it improperly used separation agreements in which existing employees were forced to waive their ability to obtain whistleblower awards in order to receive their monetary separation payments from the firm. BlackRock consented to the SEC’s order without admitting or denying the findings that it violated Rule 21F-17.

2. Details of all enforcement actions taken by SEBI in the last three years and/ or pending with SEBI for the violation of SEBI Act, 1992 and Rules and Regulations framed there under including debarment and/ or suspension and/ or cancellation and/ or imposition of monetary penalty/adjudication/enquiry proceedings, if any, to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel (especially the fund managers) of the AMC and Trustee Company were/ are a party:

NONE.

3. Any pending material civil or criminal litigation incidental to the business of the Mutual Fund to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel are a party:

NONE.

4. Any deficiency in the systems and operations of the Sponsor(s) and/ or the AMC and/ or the Board of Trustees/Trustee Company which SEBI has specifically advised to be disclosed in the SID, or which has been notified by any other regulatory agency:

NONE.

Notwithstanding anything contained in this SID, the provisions of the SEBI (MF) Regulations, 1996 and the guidelines there under shall be applicable.
